

The best apps for business

Every business owner knows how difficult it is to get up and running. One of the biggest issues is time, or the lack of it. With so much to do, it is important that you get the maximum benefit from all your investments, and that includes your smartphone or tablet.

As a business owner, there's not much point in merely downloading the likes of the Facebook and Angry Birds apps to check out on your downtime. Your smartphone or tablet is a valuable resource for business, and there is a wealth of business apps out there that will make your life easier, and your business more streamlined.

Here are some of the best business apps for both iOS and Android you can get, for free unless otherwise stated:
