

## New world-class security accelerator in Cork

### Are you in Cork or do you want to move to Cork to build a global business?

CorkBIC has announced a new security accelerator for startups working in cybersecurity and related fields.

The startups who are accepted onto the security accelerator will receive €50,000 each in investment, free office space, access to an exclusive network of industry leaders, mentors and investors, as well as hands-on business development expertise.

This accelerator is now open for entries and is looking to invest in early-stage firms in the security industry including, cybersecurity, internet of things (IoT), Blockchain, AI, health and bioinformatics, defence, critical infrastructure, financial services, and logistics.

#### How many will be accepted?

Up to seven companies will be accepted. Apply [here](#).

#### What are the selection criteria?

- Team
- Technology
- The business model and the market opportunity
- Stage of development – early traction?
- A commitment to relocate to Cork and build a global business

Applications are now open until July 2018. All Interviews will take in August 2018. The accelerator will begin in October 2018.
