Have you tested your business to see what impact Brexit will bring? Now you can. It's time to #PrepareforBrexit.

The only certainty that Brexit has brought is that it will have a disruptive effect on Ireland, economically and socially. If you are in business, it's important to prepare for change.

Enterprise Ireland has launched a [Brexit SME Scorecard](#) to help companies self-assess their readiness for Brexit.

"Irish companies must prepare for a hard Brexit. The SME Scorecard is a first step to putting a Brexit business plan in place," says Julie Sinnamon, CEO, Enterprise Ireland.

Based on answers supplied by you, the business owner, the [Scorecard](#) generates a report that has suggested actions and resources, and information on events for companies to attend, to prepare for Brexit.

"Now that Article 50 is triggered, a two-year time frame counting down to the UK's exit from the EU has been set. Irish companies should start preparing for a hard Brexit and be fully equipped to meet both the challenges and the opportunities arising from Brexit head-on," says Sinnamon.
