“The Bank of Ireland scholarship programme really has been one of the big success stories at Republic of Work. BOI’s support has seen most of Cork’s breakthrough startup success stories of the last two years get access to free space,” says DC Cahalane, CEO, Republic of Work.

The scholarship desks will house startups, researchers, and NGOs as well as people from multinationals looking to set up operations in the region.

The aim of the scholarships is simple – to give those in need a desk in a vibrant coworking space while they tackle a specific business goal, over a six month period commencing on 1st February 2019.

To apply for the scholarship, you should state your “time-bound goal”, and you must follow the rules of the coworking space.
